**(Reading)**

**14 Marks**

1. Read the passage given below :

**8**

- (1) Too many parents these days can't say no. As a result, they find themselves raising 'children' who respond greedily to the advertisements aimed right at them. Even getting what they want doesn't satisfy some kids; they only want more. Now, a growing number of psychologists, educators and parents think it's time to stop the madness and start teaching kids about what's really important : values like hard work, contentment, honesty and compassion. The struggle to set limits has never been tougher – and the stakes have never been higher. One recent study of adults who were overindulged as children, paints a discouraging picture of their future : when given too much too soon, they grow up to be adults who have difficulty coping with life's disappointments. They also have distorted sense of entitlement that gets in the way of success in the work place and in relationships.
- (2) Psychologists say that parents who over indulge their kids, set them up to be more vulnerable to future anxiety and depression. Today's parents themselves raised on values of thrift and self-sacrifice, grew up in a culture where 'no' was a household word. Today's kids want much more, partly because there is so much more to want. The oldest members of this generation were born in the late 1980s, just as PCs and video games were making their assault on the family room. They think of MP3 players and flat screen TVs as essential utilities, and

they have developed strategies to get them. One survey of teenagers found that when they crave for something new; most expect to ask nine times before their parents give in. By every measure, parents are shelling out record amounts. In the heat of this buying blitz, even parents who desperately need to say no find themselves reaching for their credit cards.

- (3) What parents need to find, is a balance between the advantages of an affluent society and the critical life lessons that come from waiting, saving and working hard to achieve goals. That search for balance has to start early. Children need limits on their behavior because they feel better and more secure when they live within a secured structure.
- (4) Older children learn self-control by watching how others, especially parents act. Learning how to overcome challenges is essential to becoming a successful adult. Few parents ask kids to do chores. They think their kids are already overburdened by social and academic pressures. Every individual can be of service to others, and life has meaning beyond one's own immediate happiness. That means parents eager to teach values have to take a long, hard look at their own :

Based on your understanding of the passage, answer any **eight** questions from the nine given below :

$1 \times 8 = 8$

- (1) What is challenging for today's parents ? 1
- (2) What will be the consequence of over indulging children ? 1

2. Read the passage given below :

- (1) Ratan, a global brand in Dairy products, works on a business model popularly known as, 'The Ratan Model'. This model aims to provide value for money to the customers and protect the interests of farmers simultaneously.
- (2) The Ratan Model is a three-tiered structure that is implemented in its Dairy production : Firstly, Ratan acts as a direct link between milk producers and consumers that removes the middlemen. Secondly, farmers (milk producers) control procurement, processing and marketing. Thirdly, it is a professionally managed organization.
- (3) One can understand the Ratan Model better by taking cognizance of 'Ratan's Target Audience', where it has targeted the mass market of India with no premium offerings and works on providing the best quality products at affordable prices.
- (4) So Ratan formulates its pricing policy on the low cost price strategy which has attracted a lot of customers in the past and it continues to do so.
- (5) Another stance used by Ratan's Target Audience is based on customer-wise targeting and industry wise targeting. This strategy divides the target audience on the following two bases :

(6) **Segment wise break down of Customer - Based target Audience**

Customers	Ratan products
Kids	Chocolate, Ratan cool, Ratan milk.
Youth	Ratan Pizza Cheese, Cheese spread.
Health Conscious	Ratan Shakti, Ratan Lite, Butter.

The above table showcases how Ratan has a diversified customer base.

- (7) Industry Based Target Audience : Ratan has segmented milk for various industries such as ice-cream manufacturers, restaurants, coffee shops, and many similar industries. Further, it has segmented butter, ghee and cheese for bakeries, snack retailers, confectioneries, and many more.
- (8) The target audience study tells us that Ratan has a strong presence in both Business to Business and Business-to-Customers.
